WOOD

TWINSON®

BEST OF BOTH WORLDS

Welcome to the world of Twinson®, one where nature and technology go hand in hand.

Twinson® is made of wood and PVC. By combining the advantages of both materials in a single new base material, Twinson® gives you the best of both worlds - the natural appearance and warm feel of wood and the durability and low

maintenance of PVC.

Twinson® is 100% recyclable - as well as being an environmentally friendly alternative to hardwood. While hardwood is only available in the threatened rain forests, Twinson® contains pine, which grows quickly in forests that are continually being replanted.

PVC

TWINSON[®] combines all the advantages of wood and PVC

- | | |
|--------------------------------|--|
| ● natural appearance | ● moss-free |
| ● splinter-free | ● does not warp |
| ● water resistant | ● environmentally friendly |
| ● resistant to rot and insects | ● easy to fit |
| ● low maintenance | ● durable |
| ● does not split | ● assembly with invisible snap-together system |

- FACE

YOUR COMFORT IS ASSURED

Twinson® gives you all the benefits of wood while enjoying the unique properties of PVC. By combining wood and PVC in a single new base material, Twinson® meets all the comfort requirements you make of your gable end planks. Water-resistant and robust, low maintenance and attractive:

-Face has everything!

Twinson® combines the warm feel of wood and the durability of PVC. Thanks to their natural ap-

pearance, -Face has everything!

gable-end planks blend in perfectly with your house. With Twinson®'s water resistance, your gable end is guaranteed to stay like new, since -Face **does not split** or **rot**, is **splinter-free** and **does not warp**.

From façade to back wall, from bay window to roof-line: -Face offers the comfort you demand time and time again.
